

THE **RUGER®** GP100® REVOLVER IN **.327 FEDERAL MAGNUM**

The new GP100® in .327 Federal Magnum features a 4.20" stainless steel barrel and an overall length of 9.50". It weighs 40 oz., holds seven rounds, and includes a fully adjustable rear sight. All GP100 double-action revolvers are known for their rugged construction and reliable performance, utilizing solid steel sidewalls (no side-plates) and frame widths that are increased with extra steel in critical areas that support the barrel. GP100's are built to last, and the addition of the .327 Federal Magnum adds diversity to a proven product line.

- **RECOIL-REDUCING, CUSHIONED, BLACK RUBBER HOGUE® MONOGrip®**
- **TRIPLE-LOCKING CYLINDER**
